Project Information

Name of project Biology here and there
Amount of grant requested (see [guidelines](#)) ~~\$692.99~~ 400 - Expected completion date for project January 2017
Who will be responsible for completion of the project? Veronica Enriquez

Description - Provide a brief overview of project plan:

The Biology subdivision serves more than 2500 students each year. Biology Building is at the back of the College, we need to be more visible in order to attract more students into Biological sciences. The announcement board to be requested can be used as a sign directing students to an event and/or have professional presentations, and outdoor classes, like Environment or Botany-related courses.

Outcome - Clearly state the outcome to be attained by the project. Be specific.

Versatility and professional look for events that may take place either indoors or outdoors. Students may have less difficulty to find out where and when an event may take place. At the beginning of the semester it can be used as a welcoming sign so old and new students can feel at home away from home. Improving interaction among students/ staff/ faculty, making activities more visible. This mobile board has a dual-sided design where the biology club, open labs, tutoring will announce any event they may have. The board is trimmed with aluminum making it more durability for several years, not to mention a professional look. It may be used outdoor for classes like Environmental Science/ Agro-ecology /General Biology; having the class just there on the field, no pound intended. Students may prepare professional presentation anywhere on campus, rehearse for a job interview, organizing in advance a speech two students at on the same board using each one different side of this sturdy board, no more papers blowing, no more Scotch tape, no more unrolling cardboards, easy to erase mistakes and correct them.

Budget - Expenditures must conform to this budget. Total budget should equal award request.
List each planned expenditure, showing: \$ amount, (to) payee, (for) description.
Example: \$56 to AcroScientific for laser pointer (Provide additional narrative if desired.)

\$332.02 to Amazon for Mfr: Best-Rite Model #: 669RU-HH
Description: Platinum Mobile Reversible Whiteboard Easel, 30 x 40
Inches Panel Size, Dura-Rite HPL Markerboard Surface

Benefits - Please briefly explain how the project will **improve service to the colleges** in your area of work responsibility. Describe what problem the project will solve, and how long the benefits will last. Be Specific.

Since the Biology Building is at the far back of the College, we need to be more visible and versatile improving and creating different teaching methods. Been a transportable board will allow to have outdoor classes where instructors/ students can be right there on the field (Environmental/ Agro-ecology/ General Biology classes) no pound intended, two students may used it at the same time. Several students will benefit from this board, studying together peer tutoring, encouraging interaction among students, building up their self-steam with public speeches. Not to mention the benefits of been outdoors.

Agreements: I agree to complete the project as described above and then provide a one-paragraph outcome report including a digital photograph to CARE. (due: June 20, 2017 or by the above completion date.)

I understand that grants will be payable to the College/District and grant purchases will become CLPCCD property.

Applicant's Signature  Date 10/13/2016
