

**Chabot-Las Positas Association of Retired Employees
CARE Fund Special Projects Grant Program
2016-2017 Application Form**

Please mail completed form to:

CARE Grants, c/o Bill Threlfall
11 Woodside Glen Court
Oakland, CA 94602

Deadline: November 14, 2016

Award announcement: December 1, 2016

Applicant Information

Name Nidia Gonzalinajec Site: Chabot LPC District Office
Campus e-mail address ngonzalinajec@chabotcollege.edu Campus phone number 510-723-7679
(or home phone if no campus phone is available)
Division or Department Academic Pathways Name of Dean/Mgr/Supervisor Amy Mattern

Project Information

Name of project Increasing student access to graphing calculators within the STEM Center
Amount of grant requested (see guidelines) \$1,000.72 Expected completion date for project Spring 2017
Who will be responsible for completion of the project? Nidia Gonzalinajec

Description - Provide a brief overview of project plan:

We would like to purchase a 10-pack of new TI-84 calculators. These would be available to students for up to a 24-hour loaner period.

Outcome - Clearly state the outcome to be attained by the project. Be specific.

Help students increase conceptual understanding of underlying math concepts by ensuring access to loaner graphing calculators (with ample time to learn how to use the calculator).

Budget - Expenditures must conform to this budget. Total budget should equal award request.

List each planned expenditure, showing: \$ amount, (to) payee, (for) description.

Example: \$56 to AcroScientific for laser pointer (Provide additional narrative if desired.)

\$899.99 to math4sale.com for discounted cost of TI-84 calculator 10-pack
\$21.98 to math4sale.com for shipping
\$78.75 to math4sale.com for taxes

Total: \$1,000.72

Note: This is based on the estimate from the vendor website (attached)

Benefits - Please briefly explain how the project will **improve service to the colleges** in your area of work responsibility. Describe what problem the project will solve, and how long the benefits will last. Be Specific.

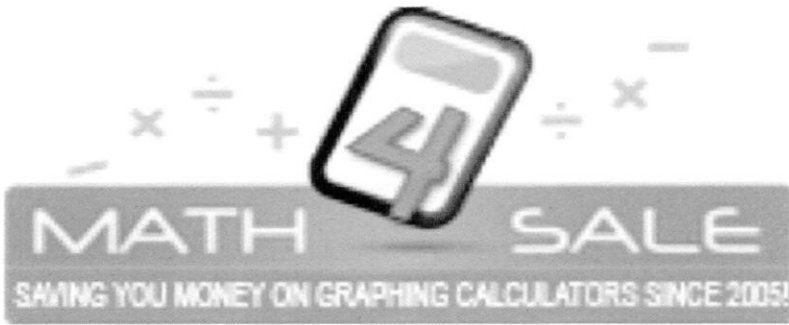

We only have one graphing calculator within the STEM Center to loan out to students despite the fact that it is the most requested calculator. These are expensive calculators. Typically, a single TI-84 can cost upwards of \$120 so many students just do without. These students are at a disadvantage. Even if they are the one student that borrows it right before an exam, they are left with no time to learn how to use the technology to the fullest.

Agreements: I agree to complete the project as described above and then provide a one-paragraph outcome report including a digital photograph to CARE. (due: June 20, 2017 or by the above completion date.)

I understand that grants will be payable to the College/District and grant purchases will become CLPCCD property.

Applicant's Signature  Date Nov 11, 2016

I agree to provide fiscal oversight:
Dean/Mgr./Supervisor's Signature  Date 11/10/16
