

Women's Studies Program Standing Banner Jane Wolford, Chabot College

The Women's Studies Program, a new interdisciplinary course of study, was established at Chabot College in Spring 2018. The Women's Studies Program banner is currently on permanent display in the busy lobby of Building 400, where all program-affiliated faculty are located. It is easily visible to all who enter via the glass doors at the main entrance. The banner is designed to promote and grow this new academic program. It is light and retractable, and will appear at campus events focusing on women and gender, including the Women's History Month Speaker Series, Student Health and Wellness Fairs, Gladiator Days and the Social Science Open House.
