

## Disposable Earplugs for Library Students Diana Navarro-Kleinschmidt, Las Positas College

Since offering our library students these disposable earplugs, we have already gone through one of the three containers of 800! We are halfway through the second container already and expect that we will need to reorder more in the Fall!

The library has had far fewer complaints of the noise and the earplugs are located on a small table, in a highly visible area, near the Reference Desk. We have had a few students come by, pleased to have this option. Thank you again for supporting the library and the students!
