

## **Clery: Collecting, Classifying, and Counting Reference**

**Rochelle Duran, Chabot College**

The Chabot College Campus Safety department would like to thank the Chabot-Las Positas Association of Retired Employees for the CARE grant. The funding has allowed the purchase of the Clery; collecting, classifying, and counting reference guides, to the majority of the full time staff in the department. These reference guides act as an easy to use clarification tool for the officers to classify Clery crimes and offenses that take place on our campus.

The reference guides have been beneficial in gaining an overall knowledge of the Clery reporting requirements and timely warnings needed on campus. Being able to understand the crimes and offenses allows officers to correctly report to the campus what is going on around them. The real outcome is safety, and the more knowledge the officers have, the more preventative measures officers can take to keep the campus safe.
